About me

Colin is a data scientist with experience in B2B settings and a background in causal inference from training in the social sciences.

Some stuff about me

- I have a master's from Columbia University.
- I was recently published in *Scientific Reports*.
- I started an S-Corp while freelancing and am looking to use my technical skills in a new position with what I learned about business in a team environment.

Experience

Present	Lead Adjunct Associate Faculty Columbia University	New York, NY
2015-2017	Data Scientist IBM	New York, NY

Education

2015	M.A., Quantitative Methods in the Social Sciences Columbia University	New York, NY
